

Immediately Available Pump Systems

Pre-configured - for urgent response

CP Pump Systems provides pre-configured, fully assembled pump units from stock – engineered for situations where time and operational reliability are critical.

- 16 defined pump units available from stock
- Continuous replenishment
- Permanently available program, not a one-off campaign
- Customer specific impeller optimization done for each unit

MKP Series

MKP 65-40-160 (EN / ANSI)
